

COIN COUNTING AND SORTING MACHINE

SORTOFAX MS 9

SORTOFAX MS 9

Portable Coin Counting and Sorting Machine for mixed batches of coins, up to 8 denominations, up to 2,500 coins per minute. Equipped with Multi-Stop unit, Standard foreign coin off-sort feature, large coin tray, Interface RS232 and output for Remote Display. Easy operation.

SORTOFAX MS 9

With the **SORTOFAX MS 9** up to eight coin denominations can be processed.

A foreign coin off-sort feature is standard. All known foreign currencies are detected and off-sorted.

The machine is equipped with a Multi-stop feature. All 8 coin denominations can be packed simultaneously into coin bags or tubes. The stop amounts are freely programmable.

The **SORTOFAX MS 9** has a standard RS-232 Interface to connect to a printer or PC.

We have made a number of fundamental changes to our operating concept and have adapted it to suit the operators needs exactly.

The new coin outlets are suitable both for coin bags or coin tubes.
